Backend:	Node.js, Express.js, Prisma ORM, JWT, REST API, GraphQL
Database:	PostgreSQL, MongoDB, MySQL
DevOps / Tools:	Docker, Git, GitHub, Linux, PM2, Nginx, Vercel, Postman, Headless CMS
Other:	Technical SEO, Speed Optimisation, Stripe, Paystation, AmarPay, Figma

WORK EXPERIENCE

[StrategyByte](#) — Full Stack Software Engineer

Oct 2025 – Present

Developed and maintained scalable full-stack web applications, building responsive frontends, secure REST APIs, and database-driven solutions for production environments.

[Jayga](#) — Frontend Developer

Mar 2024 – Aug 2025

Developed and maintained scalable React applications, integrating REST APIs and delivering responsive, production-ready user interfaces for business platforms.

[Kodezen Limited](#) — React Developer (Intern)

Nov 2023 – Feb 2024

Developed reusable React components, implemented responsive user interfaces, and resolved UI bugs while collaborating with the development team.

PROJECTS

Alex Rodriguez – Counselling Booking Platform

[Live Preview](#)

Tech Stack: Next.js, Redux, Shadcn, Node.js, Express.js, Prisma, PostgreSQL, Stripe

- Built a multi-step appointment booking platform with counsellor selection, real-time availability, and timezone-aware scheduling.
- Developed secure booking APIs, calendar integration, and payment workflows to streamline appointment management.
- Optimized user experience with responsive interfaces, dynamic slot generation, and efficient state management for seamless booking.

Paper Talk – AI Knowledge Assistant

[Github & Documentation](#) [Live Preview](#)

Tech Stack: Next.js, WebSockets, Gemini API Key, Zustand, PDF parser, Mammoth, SheetJS, Playwright

- Architected a full-stack real-time AI assistant with voice, chat, document understanding, and WebSocket-based communication.
- Built a document-grounding pipeline to improve AI response quality while reducing API costs and latency.
- Designed a cross-modal conversation memory system that shared context seamlessly between voice and text sessions using incremental rolling summaries.

NPM Package: react-customizable-dropdown

[Live Preview](#)

Tech Stack: React, TypeScript, npm

- Published an open-source React dropdown component package to npm.
- Built customizable features including search, multi-select, keyboard navigation, and theming.
- Designed for reusability, accessibility, and seamless integration into modern React applications.

EDUCATION

BSc in Marketing	2019–2020	Govt. Barisal College, Barisal(NU)
HSC in Science	2018–2019	Govt. Alekanda College, Barishal
